

## PRINCE2™ Foundation

### WHO

Project Managers, Project Assurance and Project Support.

### OBJECTIVES

- Understand how to plan and organise PRINCE2™ projects
- Use PRINCE2™ to ensure quality is delivered
- Follow processes to complete successful projects
- Undertake risk analysis and management
- Pass Foundation Exam

### CONTENT

This three day course is designed to maximise examination success whilst developing participants understanding of the method to be able to apply in their work. It consists of the following major areas:

- Introduction to Project Management
- All PRINCE2™ Processes from Start up to Closing a Project
- Organisation
- Business Case
- Planning
- Controls
- Risk management
- Quality
- Change control and configuration management

### APPROACH

A combination of trainer led and practical group working, delivered by an APMG approved trainer. All materials are accredited by APMG.

### DURATION

This is an intensive 3 day course with evening work.

### EXAMS

The Foundation exam is one hour multiple choice.

### PRE-REQUISITES

20 Hours pre-course study. PRINCE2™ manual, study guide, interactive CD and e-support provided.
